

## May use optical-scan ballots or voting systems

The election commissioner or county clerk **may** use optical-scan ballots or voting systems. Hand-counting or manual-counting of ballots was approved long before electronic counting. The statute does not say we **must** use electronic voting systems.

County Boards or County Supervisors or Canvassing Boards **certify/ or not certify** the county elections confirming they believe the election was fair and accurate!

### **32-1041. Voting and counting methods and locations authorized; approval required; when; electronic voting system prohibited.**

(1) The election commissioner or county clerk **may use optical-scan ballots or voting systems** approved by the Secretary of State to allow registered voters to cast their votes at any election. The election commissioner or county clerk may use vote counting devices and voting systems approved by the Secretary of State for tabulating the votes cast at any election. Vote counting devices shall include electronic counting devices such as optical scanners.

(2) No electronic voting system shall be used under the Election Act.

(3) Any **new** voting or counting system shall be approved by the Secretary of State prior to use by an election commissioner or county clerk. The Secretary of State may adopt and promulgate rules and regulations to establish different procedures and locations for voting and counting votes pursuant to the use of any new voting or counting system. The procedures shall be designed to preserve the safety and confidentiality of each vote cast and the secrecy and security of the counting process, to establish security provisions for the prevention of fraud, and to ensure that the election is conducted in a fair manner.

### **32-110.01. Electronic voting system, defined.**

Electronic voting system means a voting system in which each part of the process is done electronically.
